Instructions for making the most of your Spanish eBooks

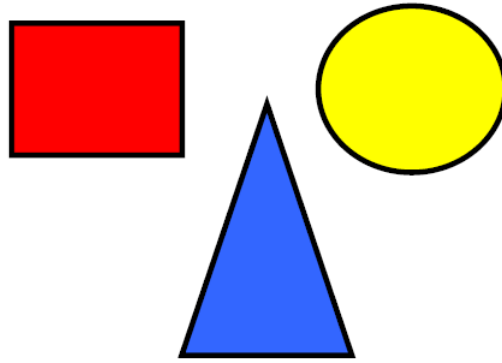

The Shapes/Dimensiones eBook is set up in two sections. The first section is in English and demonstrates a specific shape and the number of the shapes that appear. Discuss with your child not only the shapes that appear, but also the color that they are displayed in. This helps reinforce the learning principles. The second section mirrors the first, but displays the Spanish words for both the numbers and the shapes. Switch between the two sections often to keep your child's mind sharp.

The Colors/Los Colores eBook showcases bright colors with both the English and Spanish words for the color presented. Once your child has mastered the colors, talk about the colors in your environment. Ask your child to identify items around the house that match the color being discussed.

The Animals/Animales eBook showcases animals in their general categories: House Pets, Farm Animals, and Zoo Animals. Both the English and Spanish words for the animals are listed. On your next trip to the zoo, ask your child to identify the animals in both English and Spanish to apply the learning principles to the real world.

SHAPES/ DIMENSIONES

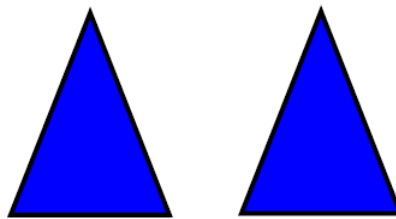

1

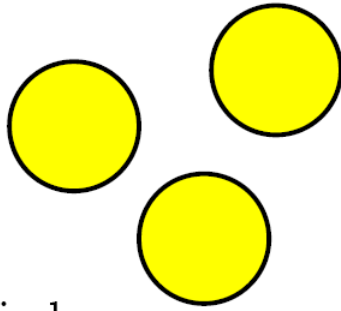

Square

2

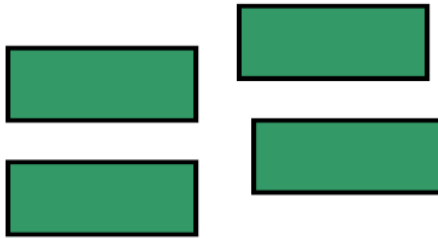

Triangles

3

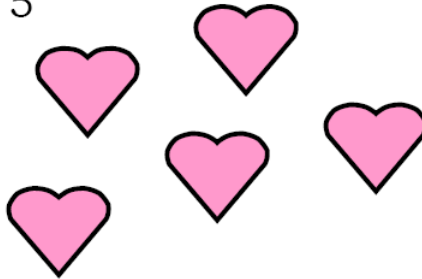

Circles

4

Rectangles

5

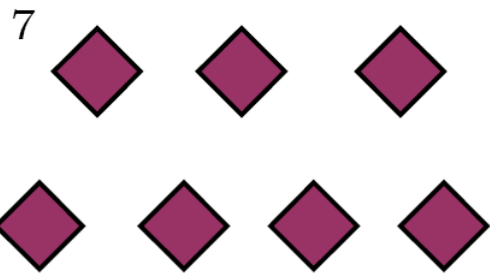

Hearts

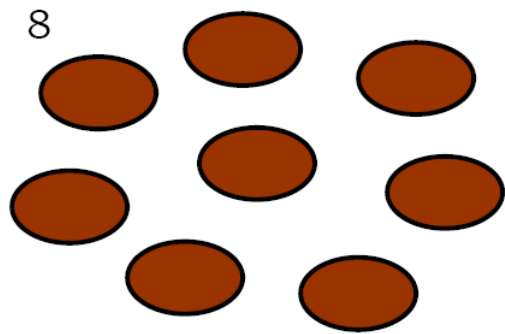

6

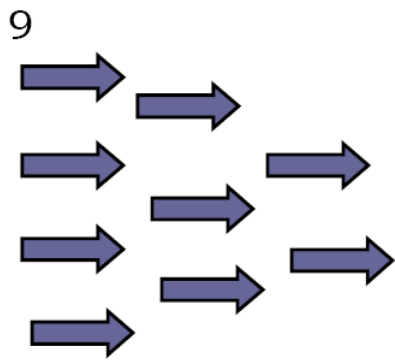

Stars

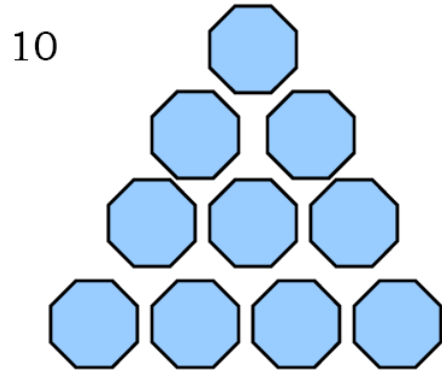

Diamonds

Ovals

Arrows
